Introductions

The machine can knit cotton yarn, chemical fiber yarn, terylene, covered spandex, nylon yarn, blended yarns and union yarn into seamless circular fabric for soft napping leggings, Ninth pants. Key spare parts like cylinder are made from good steel. It is reliable and durable. Machine body is fully-enclosed metal plate, attractive and durable. Motor and belt line inside the body makes the machine more reliable. Developed control system with LCD automatically stop when yarn breaks or needle leaks, counter shows the current output, more convenient for user to operate. Transducer achieves soft start, automatic transmission. Synchronous belt drive gets higher speed, decreases noise, and improves stability. All key spare parts are accurately made, cam, cylinder, needles are specially manufactured by CNC machining center, chroming prevents the spare parts from rust.
